

Drink Coolers and Coolies

Use this template to design the print pattern or graphic for your custom-printed drink coolies. If you only want a logo or slogan printed on a stock-colored cooler, you can supply the graphic for us without using the template. Avoid placing any critical information outside of the dashed line. The area outside of the pink line is used for sewing.

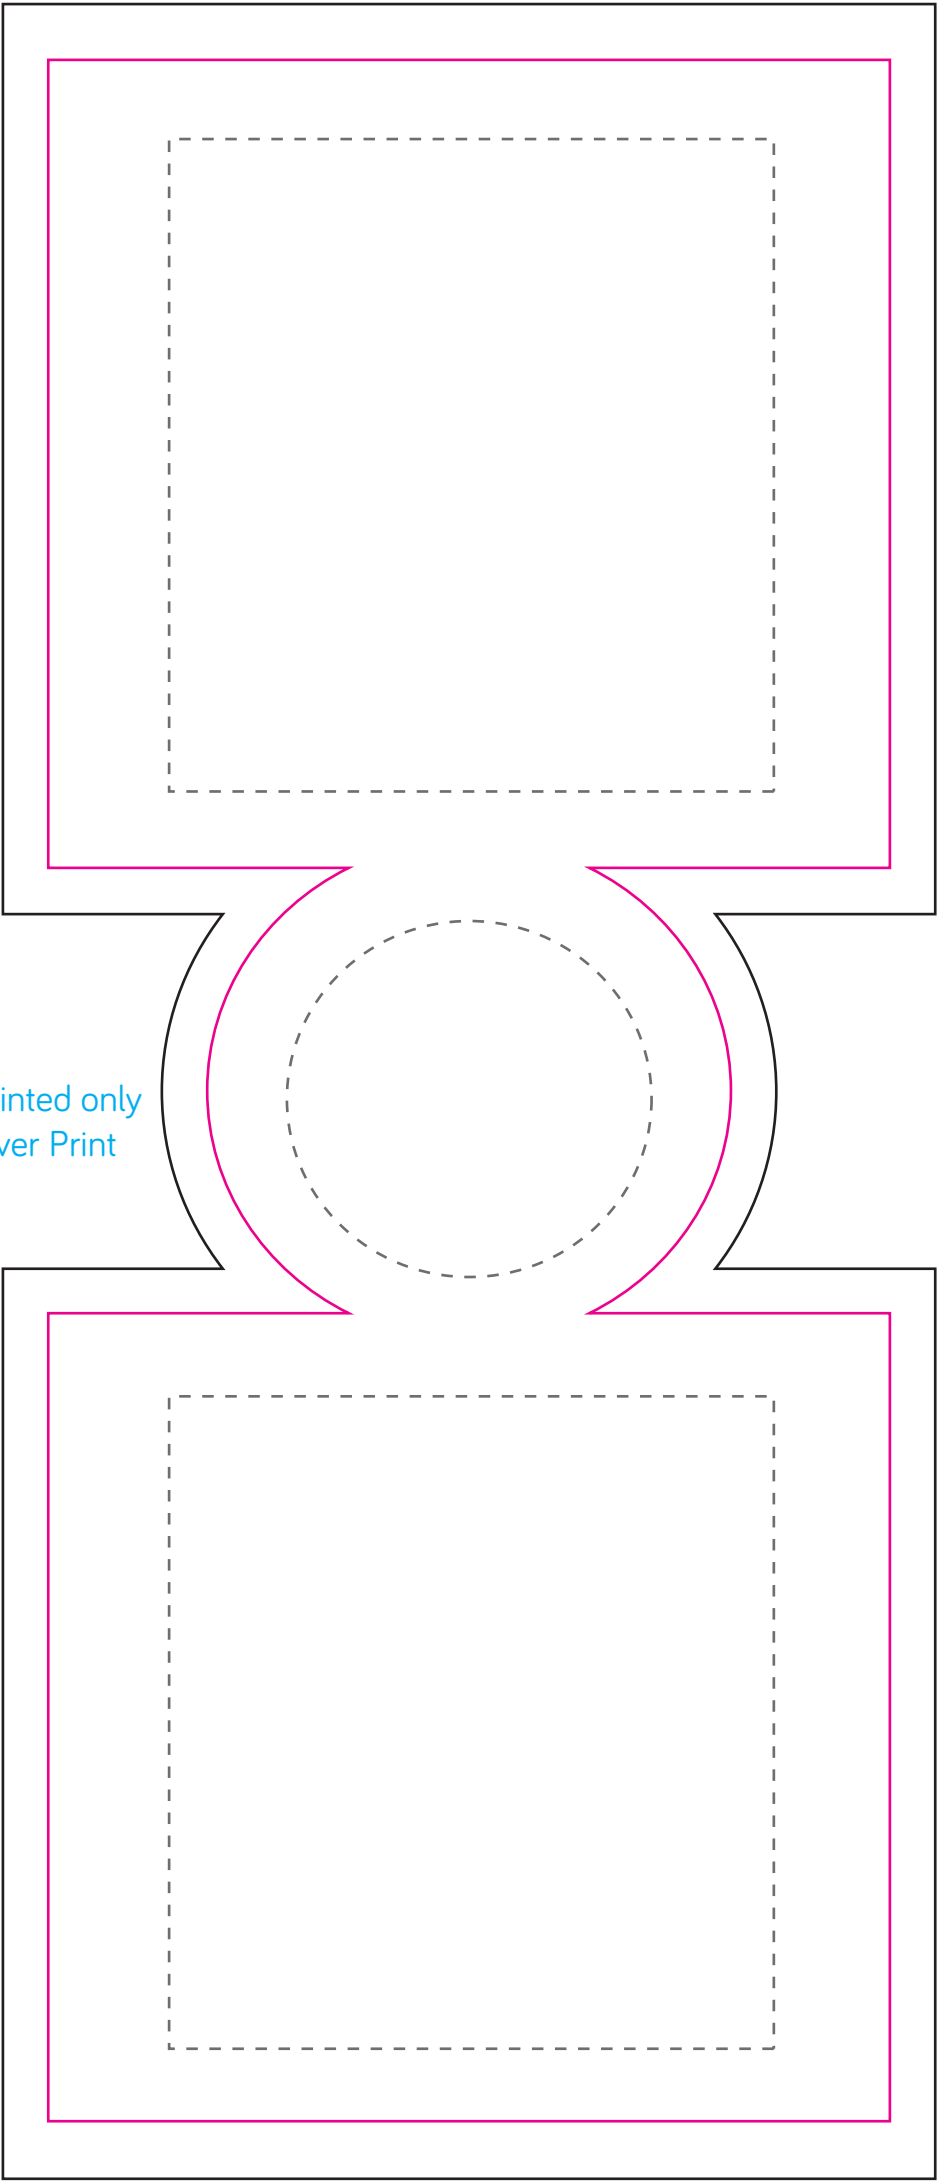

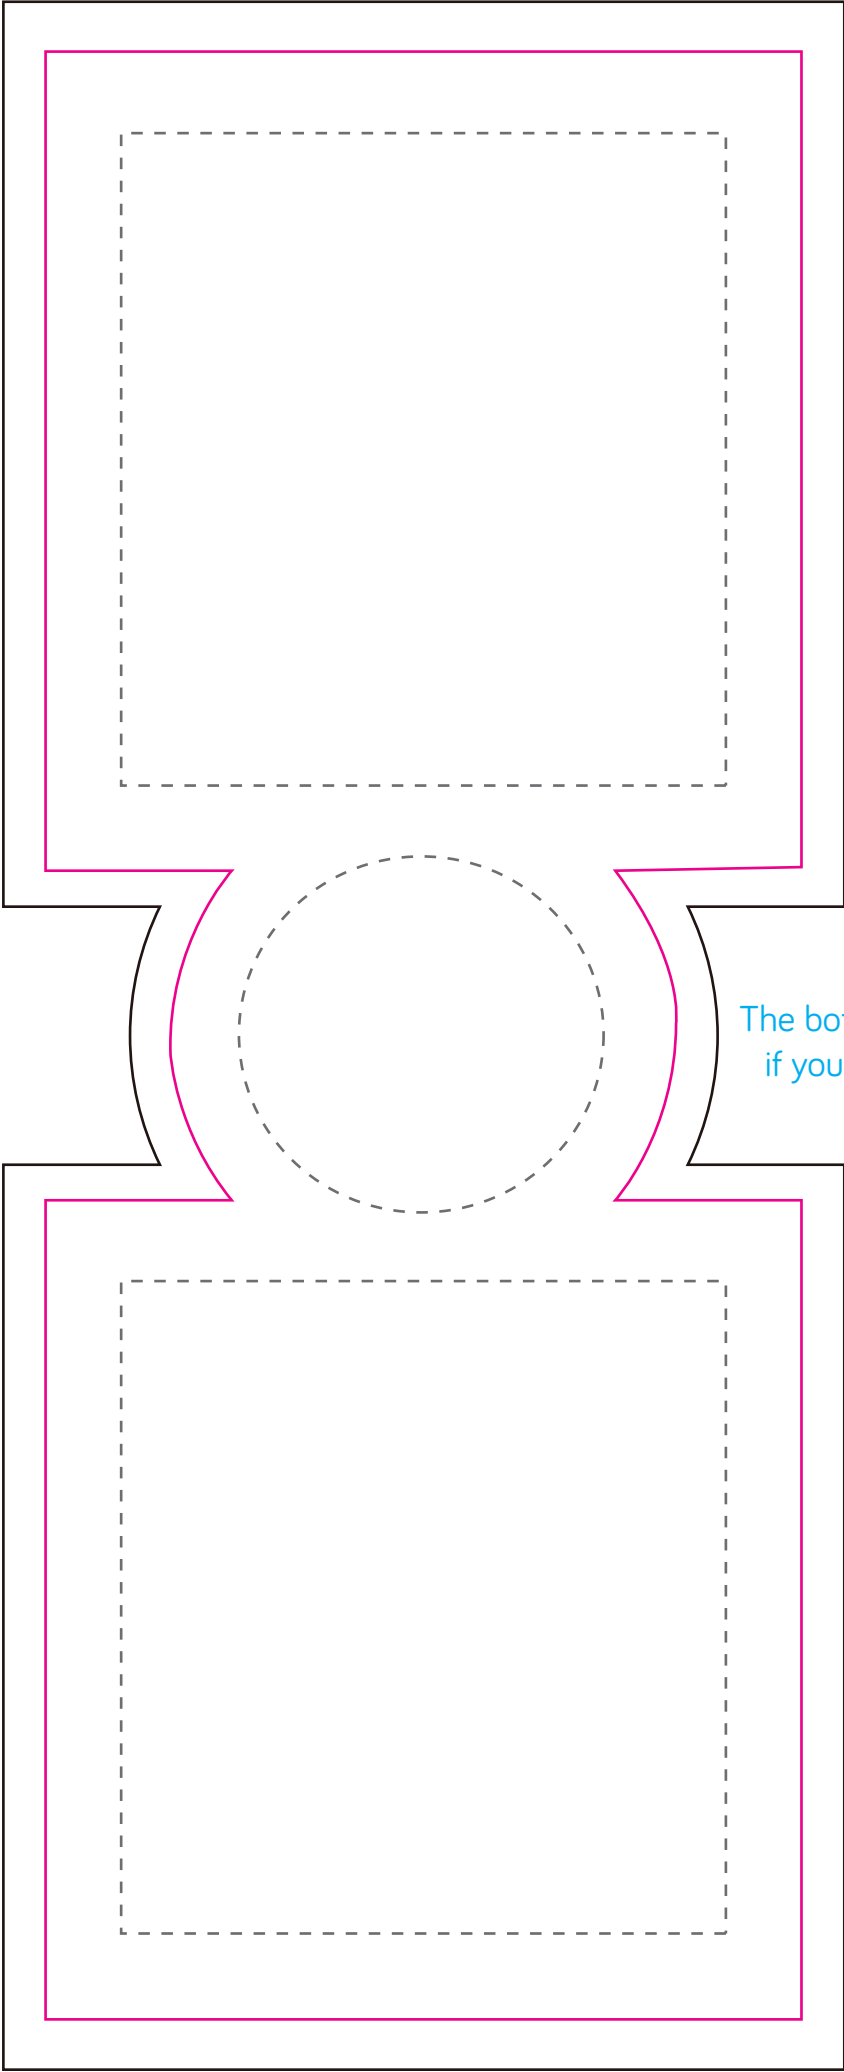

IMPORTANT INFORMATION ON FOUR-COLOR PRINT

The fastest printing method is the Four-Color Print on a ready-made (sewn) cooler using an in-stock color product. The cooler is folded and sewn together before printing. For this reason, we are unable to print on the bottom. Printed areas are the dashed safe areas on the sides.

Foam material

Neoprene

The bottom part is printed only if you choose All-Over Print

- Artwork size (fill with background color for “All-Over” print)
- Final product size (cut after printing before sewing for “All-Over” and Screen print)
- Printed area for Screen Print & Four-color print
