

If you cannot produce your design in a print-ready format, we can do the design for you. Choose whether you want the glue-bound notepads printed with a square grid or lines or plain with just the logo. If you have a logo, send it to us in vectorized PDF format. If the logo is unavailable as a PDF, send what you have, ensuring the logo is as large as possible. It should fill the entire computer screen to be printable. We will create a digital proof for you to view before production. Revisions to the proof are made free of charge for one time. Additional revisions are charged. Instead of a logo, we can print just the event's name.

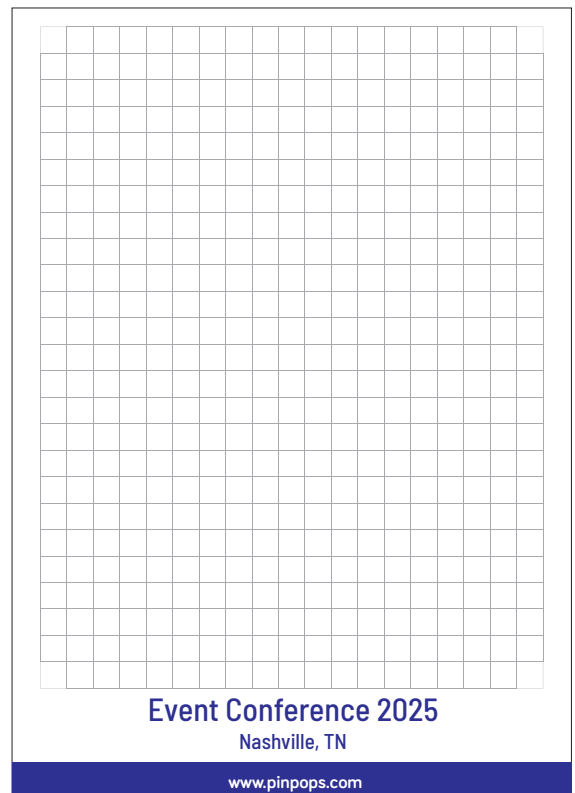

Glued notepad with printed grid (1/4")

Glued notepad with lines

Reference points for positioning the logo

Contact details or any other information can be included as part of the design
